Board Members:

The ongoing survey for interested families in the Preston Campus has received responses from dozens of families with over 80 interested students and so there appears to be sufficient demand to run a pilot program this fall. The officers met at the end of last week to consider options and propose a combined Pre-K/K homeroom class along with a combined 1st grade/2nd grade homeroom class beginning on August 10th. If registrations grow enough to split those classes we can do so at a later time. Students in grade levels 3-10 would be provided with transportation from the PCYC to/from our existing campus, which will work really well with the additional bus route we are already planning to add.

One issue on legal compliance is that the facility must be in our PRA as reflected in our charter agreement. The Professional Charter School Board (PCSB) has always been very willing to work with our organization on any needed amendments and I do not anticipate there being any push back from them, but we're pressed for time. Their July meeting is the same day as our annual meeting (this Thursday) except they meet in the AM and then they don't meet again until August 3rd. So it would be in our best interest to get the updated PRA boundary to them ASAP and today if possible.

I have attached an updated PRA map and boundary description for approval by the board members. We already approved the expansion into the suncrest and brookhaven areas, but we need a formal boundary approved to be included in our revised charter agreement. As such:

Action: I am requesting that the governing board approve the updated boundary to our Primary Recruitment Area that includes the suncrest area, brookhaven, and the PCYC based on the attached files through a unanimous resolution. Please reply-all and indicate whether you approve.

I approve/consent to this action.

If we do not get a unanimous approval then we will need to hold a vote in our meeting, but that would be less than ideal as the earliest the PCYC would be able to move on this to approve it would be August 3rd, which is cutting things closer than I'd like. So I'm hopeful you will agree and approve this motion unanimously. If you have questions and you'd like to call me, please do not hesitate to do so. I will be driving out to Columbus, OH and back today to pick up desks for students, so I should be able to talk.
